By this License, Planet gives You the right to use the Product, subject to use of the Product in strict compliance with the terms hereof. By downloading, accessing, or using the Product, You accept all the terms and conditions of this License. The acceptance of this License is the condition upon which Planet makes the Product available to You.

## 1. Definitions

"**Contractor**" means an individual contracted by You, either directly or through a consulting company or other entity, to provide services on your behalf or for your benefit.

"**Derivative Works**" or "**DW**" means any derivative Product developed by You, which does not contain any imagery data from the Product and is irreversible and uncoupled from the Product. By express exception, any Digital Elevation Model or Digital Terrain Model derived in any form whatsoever from a Product shall never be considered as Derivative Works.

"**End-User**" means the person, the legal commercial business entity, or the government agency, which has accepted this License to be supplied with the Product. Except upon Planet's prior agreement in writing, a government entity is limited to the entity located at the address where the Product is supplied.

"**Extract**" means an extract or screenshot of a Product or VAP in a secure, non-extractable, and non-downloadable format that prohibits manipulation of any pixel or metadata contained in the Product or VAP as follows:

- (a) 2048 x 2048 pixels; and
- (b) At a resolution no better than resolution of imagery at which the Extract was captured;
- (c) As an image file (.pdf, .jpeg, .tiff, .png, .bmp, .gif) or any format without georeferencing information, with or without rasters or vectors on top; and
- (d) Properly attributing the copyright imagery.

"**Product**" means the satellite product, as specified in the agreement, purchase order, or subscription to which this License belongs, supplied by Planet to the End-User.

"**Value-Added Product**" or "**VAP**" means any product developed by End-User which contains imagery data from the Product that has been significantly modeled through technical manipulations and/or addition of other data. By express exception, any Digital Elevation Model or Digital Terrain Model derived in any form whatsoever from a Product shall always be considered as a VAP.
